Professional Summary:

Business Product Owner in SSE Airtricity, responsible for the new SSE Airtricity App used by SSE's Home Energy customers across ROI & NI (circa. 100k users). Also, leading the aware winning Smart Enhanced Insights programme which leverages smart meter data to provide customers with data analysis and AI driven energy saving recommendations. Experienced in defining product roadmaps, prioritising features that drive customer and business value and collaborating with cross-functional teams.

Work Experience:

2025 – Present **Business Product Owner, SSE Airtricity, Leopardstown:**

Owned the product roadmap and backlog for the new SSE Airtricity Mobile App, supporting circa 100,000 customers across ROI and NI. Led the delivery of a major platform transformation from Angular to React, enabling improved performance, scalability, and future product innovation. Directed the prioritisation of customer-focused features and enhancements, ensuring alignment with business strategy and customer value. Worked closely with the UX team to deliver a significant redesign aimed at enhancing customer journeys, self-service capabilities, and overall user experience.

2023 – 2025 **Digital Change Manager, SSE plc., Leopardstown:**

Digital Change Manager on Automation and Central Data Services workstreams within Business-wide Digital Transformation programme. Developed multiple Power Apps for business units including a Skills Matrix app that is used by over 1.5k employees in the UK.

2022 – 2023 **Senior Change Analyst, Permanent TSB, St. Stephen's Green:**

Maintained and enhanced data reports feeding into the overall monthly executive reports. Automated weekly processes using VBA to reduce turnaround times for reporting schedules. Responsible for ensuring senior portfolio managers tracked monthly status reports on their respective portfolios for inflight and mobilising projects.

2018 – 2022 **Change Management Specialist, Three Ireland, Sir John Rogerson Quay:**
Related Projects:

Brooklyn – Store + Digital Transformation - Business Readiness + UAT Lead:

Lead the Business Readiness and UAT workstream for the store and digital transformation of Three stores across Ireland. Project consisted of 10 different work packages which I facilitate the closure of over 600 business/customer impacts. Led the UAT for both internal operations and off-site operation teams.

3Vision – Integration of O2 & Three CRM systems - Change Management Specialist:

Change specialist on the O2/Three system integrations. Project was a large data digital transformation to integrate legacy systems into a target 3rd party omni channel system. Responsible for UAT testing of operational customer journey's, data cleansing of legacy data, customer and operational communications planning and screen to screen mapping of systems.

2014 – 2018 **Sales Assistant, Dixons Carphone, Jervis Shopping Centre**

2017 – 2017 **Management Trainee, Enterprise Rent-a-Car, Dublin Airport:**
